

DISCLAIMER BEFORE LOOKING AT POSTED GRADES!!

Keep in mind that scores posted here are sensitive and should be viewed in the accompaniment of an adult. Grades are a sensitive subject, and for many reasons students do well or under perform on any given day. These grades are not intended to make any feel bad or less important than anyone else. Instead of dwelling on a negative grade, use posted grades as motivation for future improvement. There is a learning experience in every assessment a student receives.

**IF YOU WOULD LIKE FOR CHILD'S
GRADE TO BE REMOVED FROM THE
SITE, contact Arkee Allen at
roce6camps@gmail.com and their scores will be
removed.**

Thanks.

Remember the E6 students take the State Exams of the grade they are going into in September. This means that the scores on the first week of camp reflect the knowledge of Math and English that they walked into camp with without any teacher assisting them. 6 weeks later the score reflects improvement after taking our E6 classes. At times an unmotivated student may not score better on the second exam. In this case we resend the exam to their house and ask that the exam be administered under the guidance of their parent.

Using the State Rubric: passing score is not necessarily 65%. The lowest score may be a 55% and we considered that when posting the results. In many cases the state may pass students with even lowered raw percentages than 55% but we did not count any scores lower than 55%. Mastery is considered 85% or higher.
