

Remember the E6 students take the State Exams of the grade they are going into in September. This means that the scores on the first week of camp reflect the knowledge of Math and English that they walked into camp with without any teacher assisting them. The "6 weeks later" score reflects improvement after taking our E6 classes. Under the State Rubric, passing scores are never 65%. In many cases raw passing percentages may be lower than 55%. We DID NOT take a curved score into account at all. All scores are 65% or higher and Mastery is 85% or higher.
